

AGGREKO COOLING TOWER SERVICES  
(ACTS)

CERTIFIED RENTAL COOLING TOWERS

AG10-1

Aggreko Cooling Tower Services (ACTS) rents portable cooling towers and associated piping and pumps. Certification and rating information is provided for our rental customers' information. Model AG10-1 is a modified version of a cooling tower from our supplier and is used exclusively by ACTS. The AG10-1 is designed to operate efficiently throughout a wide range of flow rates from under 1000 to over 3000 GPM.

Tower dimensions below are approximate and not for construction but are given for general layout considerations. Legs shown are standard but may be longer or shorter.
