

AGGREKO COOLING TOWER SERVICES
(ACTS)

CERTIFIED RENTAL COOLING TOWERS

AG Models

Aggreko Cooling Tower Services rents portable cooling towers and associated piping, pumps, and electrical equipment. Certification and rating information is provided for our rental customers. Models AG-4, AG-6, AG-8, AG-10, are modified versions of a cooling tower from our supplier and are used exclusively by ACTS. Model AG-12 is an Aggreko design built specifically for our own use. The AG models are designed to operate efficiently through a wide range of flow rates from under 400 to over 3600 GPM. Aggreko Cooling Tower Services total fleet is capable of cooling over 1,000,000 GPM.

Tower dimensions shown below are approximate and not for construction but are for general layout considerations. Legs shown (A) are standard but may be longer or shorter.

Dimensions	A	B	C	D
AG12	8'	11'	12'	36'
AG10	8'	11'	12'	30'
AG 8	8'	11'	12'	24'
AG 6	8'	11'	12'	18'
AG 4	8'	11'	12'	12'
